

Front Coil Springs : DuraTPE® Series, Size A (CSB-A-R ) Rear Coil Springs : DuraTPE® Pro Series, Size B+ (CSBPro-BP)  
Ground Lifting Height : 1.5"

**IMPORTANT NOTICE:** INSTALLERS SHOULD APPLY COMMON AUTOMOTIVE SAFETY PRACTICES WHEN RAISING, LOWERING AND WORKING ON VEHICLES, ALWAYS WEARING SAFETY GLASSES, USING BOTH HYDRAULIC JACK AND JACK STAND DURING THE INSTALLATION. We recommend that this installation be done by a professional or person with auto mechanical knowledge.

1. Ground clearance before and after installation – The ground clearance increases around 1.5"

2. CSB-A-R size A was chosen to install on the front of this SUV

3. Owner wants to install CSBPro in the rear end to get more support on the back due to constant loading. After measured the gap, we pick size B+ for this installation.

Need to drill a hole for zip tie to go through buffer and CSBPro series.

Install CSBPro-BP on the rear coil spring
